

# HALAL LOGO USAGE, COSTS & DETAILS

CERTIFIED VIA VITALABS SUBMISSION

Vitalabs is proud to announce that it has become Halal Certified by Islamic Services of America (ISA)

For only \$400.00 annually (\$33.33 per month) your company gains access to over 60 (*and growing*) different Halal certified formulas! While your Private Label company itself will not be certified by ISA, your product is Halal certified, your private label will have the ISA Certification mark of your choosing. In addition, you will have access to our Vitalabs, Inc. annual Halal certificate that lists all our certified product formulas.

## A SIMPLE 3 STEP PROCESS GAINS YOU ACCESS TO THE WORLD RENOWNED HALAL CERTIFICATION MARKS:

- 1 Contact Vitalabs, Inc. and establish your product selection(s).
- 2 Submit your company's logo and 3<sup>rd</sup> Party Private Label Proxy Letter on your company's letterhead to Vitalabs, Inc.
- 3 Vitalabs, Inc. submits your company's product label bearing the ISA logo to ISA for approval.

You may attain your own company certification with ISA for an annual fee of \$1500. Certifications are for a calendar year but ISA will prorate cost for the initial year to reflect the amount of months you would be receiving certification. If you are interested in getting your company certified, Vitalabs will be more than happy to put you in touch with ISA directly.

## HALAL CERTIFICATION SEALS

Halal Certified Logo usage for Vitalabs' private label customers is \$400 annually and this covers as many labels and bottle count sizes as Vitalabs has been approved for.

Each Vitalabs private label customer will be required to complete and sign a Proxy Statement placed on your letterhead that simply stands as a written authorization allowing Vitalabs to represent your company and for the use of Halal Certified logo.

You may select from one of these three Halal Certified seals for your label:

In addition to selecting from one of the three above seals, either of the three following statements can be placed adjacent to the ingredients listing of your private label product:

Certified Halal by ISA

or

Certified Halal by Islamic Services of America.

**Note:** Out of respect for ISA and the integrity of the halal certification, no other statements pertaining to halal or ISA may be stated on your label, website or printed material. The use of the above seal in its unadulterated form may only be used to promote that the approved product formulas themselves have been certified by ISA.

Presently, the following Vitalabs product formulas have been approved & certified by ISA and are available for you to purchase under your private label name:
